About Universal Briefing

Universal Briefing (UB) is a voluntary, non-profit, non-governmental organization with a primary focus on advancing Library and Information Services. Its goal is to cultivate professional expertise among young professionals by providing opportunities to develop essential skills and knowledge. UB aims to create tools and methods that help accelerate the growth of future generations in the field, while also supporting research activities to disseminate new knowledge and innovative ideas. Additionally, the platform strives to enhance information-handling skills among students, empowering them to navigate and use information effectively. UB is committed to building an inclusive and collaborative environment that fosters unity, fraternity, and mutual support within society.

Editorial Desk

From Editorial Desk

We have successfully completed a fruitful one-year journey of publishing the *UB Newsletter*. This endeavour was not without its challenges; there were many ups and downs, countless brainstorming sessions, and numerous dream-weaving moments that have made this achievement possible. After publishing 12+3 issues, we are now on the verge of releasing our next issue with ISSN accreditation, marking the beginning of a new era for *Universal Briefing*. Our publication has left a significant footprint in the Library and Information Science (LIS) domain, and we are proud of the impact it has made.

Reflecting on this enriching year, we are grateful for the opportunity to share knowledge, innovations, and best practices through our 15 issues, which have fostered meaningful dialogue within our community. The ISSN accreditation stands as a proud milestone in our journey, a testament to our commitment to quality and scholarly recognition. This accomplishment is a result of the collective efforts of our contributors, readers, and editorial team. We extend our heartfelt gratitude to everyone who has been part of this journey, and we look forward to continuing our mission of advancing the LIS profession through this publication. To ensure even greater enrichment in the future, we kindly request your continued support by sharing valuable data, insights, and resources that will help us grow and evolve in the coming years.

We extend our heartfelt gratitude to everyone who has been part of this journey and look forward to continuing our mission of advancing the LIS profession through this publication.

38th Study Circle

The 38th study circle of universal briefing took place on 25th January at 7.30 pm. The speaker for the session was Ms. Apala Chatterjee Librarian, P.R. Thakur Govt. College Thakurnagar, North 24 Parganas, West Bengal and the President of the session was Dr. Ziaur Rahman, Associate Professor & Head Dept. of Library and Information Science, Rabindra Bharati University, West Bengal. The topic of the study circle was "The Matilda Effect: Invisible Women Scientists in Science".

The speaker introduced a compelling phenomenon that remains largely unknown to many: the Matilda Effect. She began by thoroughly explaining what this effect entails and how it contributes to the widening gender gap in STEM fields. Delving deeper, she highlighted several notable "Matildas" in science, illustrating the overlooked contributions of women throughout history. The speaker also explored the underlying causes that perpetuate this bias and offered insightful suggestions for mitigating its impact. Furthermore, she discussed how the Sustainable Development Goals (SDGs) can play a role in addressing this issue. Ultimately, her presentation underscored the critical need to reduce gender disparity in research and recognition, advocating for a more equitable and inclusive culture in academia.

UB-Study Circle (Forthcoming Notification)

The 39th study circle of the Universal Briefing will take place on 1st March, 2025 at 7.30 pm.

Obituary

We are deeply saddened to announce the passing of **Prof. Shahabuddin Ansari**, former Professor and University Librarian at **Jamia Millia Islamia University**. A highly respected scholar and library professional, Prof. Ansari was a guiding force in the field of library and information science. His remarkable dedication to academia and librarianship spanned several decades, during which he made significant contributions to research, teaching, and library administration. Known for his deep knowledge, unwavering commitment, and gentle demeanour, he played a crucial role in shaping the careers of many professionals who continue to uphold the values he instilled in them. His loss leaves an immense void in the academic and library fraternity.

Prof. Ansari was not only an outstanding librarian and educator but also a man of exceptional honesty, humility, and integrity. A silent worker, he remained deeply committed to his profession, always prioritizing knowledge and service over personal recognition. He was closely associated with distinguished scholars such as **Prof. Girja Kumar**, **Prof. Kashyap**, **Prof. Krishan Kumar**, **Dr. A.R. Sethi**, and **Prof. P.B. Mangla**, contributing immensely to academic discussions and library development initiatives. Despite his vast contributions to the field, he remained a humble and selfless individual who dedicated his life to the betterment of library services and the mentorship of young professionals.

A true mentor and father figure to many of his students, Prof. Ansari's impact extended far beyond the classroom. He not only guided students in their academic pursuits but also inspired them to uphold ethics, diligence, and professionalism in their careers. Many of his students and colleagues fondly remember him as a compassionate teacher who always encouraged critical thinking and lifelong learning. His influence motivated many to join the library profession, and his support played a pivotal role in shaping their professional journeys. His guidance was not limited to academics; he was a source of personal and professional inspiration, always extending a helping hand to those in need.

His passing is a tremendous loss to the library and academic community, and his absence will be deeply felt by all who had the privilege of knowing him. **Universal Briefing** extends its heartfelt condolences to his family, friends, colleagues, and students during this difficult time. We pray that the Almighty grants his family the strength to endure this irreparable loss. May his noble soul rest in eternal peace, and may his legacy of knowledge, service, and mentorship continue to illuminate the path for future generations.

The book "Pandemic Pedagogy" was published by Prova Prakashani in collaboration with Universal Briefing in the year 2020. It was jointly edited by Dr. Ranjan Samanta and Dr. Swapan Khan. The book had informative eighteenth chapters. The outstanding contribution of authors presented an exceptional dimension on pandemic pedagogy in relation to academic library and pandemic pedagogy mainly in higher education. Thought content, practical experience and knowledge of authors would help the students, scholars, library professional and others to understand the situation of education during Pandemic and the challenge taken to overcome; teaching learning process of that situation; advancement of new technology; extension of online education and open educational resources; opportunities and threats of online education.

The book "Library and Learning in Times of Crisis" was published by Prova Prakashani in collaboration with Universal Briefing in the year 2021, edited by Dr. Ranjan Samanta and Dr. Swapan Khan. It contained seventeenth valuable research papers highlighted the role of libraries especially academic libraries and online teaching learning during the period of Global Pandemic of Covid-19. Some papers focused on Government initiatives for learners during Covid-19, effectiveness of social media for education; strength, weakness, opportunity, and threat of e-learning; importance of e-resources etc. The papers helped librarian to take various steps in every aspect of library services. Overall, all papers were very informative and insightful for learners, teachers, administrators, policy makers and government.

A book was published in February 2023 by Universal briefing with the title "Open Educational Resources: Research Perspectives", comprising selected articles from the two-day International Webinar of the same title, which was organised by Universal Briefing on 20th and 21st November, 2021 at Kolkata, India. The book contains 13 selected articles on different aspects of OER including SWOT analysis, NEP, copyright and license, sustainability of OER etc., written by LIS professionals from various fields. This conference proceedings volume is edited by Dr. Avik Roy, Librarian, Derozio Memorial College; and illustrated by Avijit Naskar.

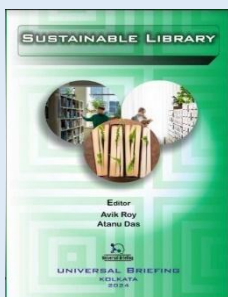

This book celebrates the profound impact of public libraries as vibrant spaces of learning, connection, and empowerment. In an era marked by rapid technological advancements and evolving societal needs, public libraries remain steadfast in their mission to provide equitable access to information and foster inclusive communities. Each chapter of this book is meticulously crafted to explore a different facet of the library experience. From the essential role of libraries in promoting literacy and lifelong learning to their innovative approaches to technology integration and community outreach, we aim to provide a comprehensive understanding of the multifaceted nature of libraries in the 21st Century.

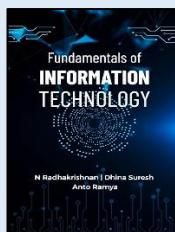

Purpose of this book titled "Redefine library in the social media age", is to visualize a dramatic transformation of concept of libraries due to rapid development of technological innovations especially in post pandemic period. The human need for information is changing day by day. They seek information from varieties of sources and formats. For this purpose, the library staff and library professionals need to adopt themselves into this dynamic environment. Social media is becoming increasingly popular among all the stakeholders of the library. There is no doubt that the present library must be defined in the context of social media to satisfy the users in this social media age.

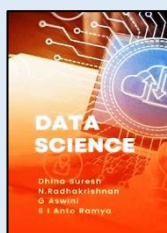

Any kind of scholarly work provides a serendipity of reading so many novel academic contents including books, book chapters, research articles, magazines, popular articles etc. Sustainability is the buzz of the day where almost every activity in the societal periphery culminates to the sustainable future. How can the library lag behind being one of the most important pillars of society? The present volume, "Sustainable Library" is an endeavour to add even an iota to the knowledge base of the global discourses on sustainable libraries. We remain grateful to Prof. Udayan Bhattacharya, Department of Library and Information Science, Jadavpur University, Kolkata to continuously inspire us to work on this compilation of the literature on sustainable libraries and publish them in one volume.

Trends on Tech

ELSA AI (English Language Speech Assistant): It is an AI-powered app designed to help users improve their English pronunciation and speaking skills. It utilizes advanced speech recognition technology to analyze speech, pinpoint errors, and provide real-time feedback. The app offers a structured curriculum with topic-based lessons, covering business English, daily conversations, and test preparation (e.g., IELTS and TOEFL). The free version provides limited access. Despite occasional misinterpretations by the AI, ELSA remains a valuable tool for improving spoken English in a flexible and interactive way.

Pros of ELSA AI

- **AI-Powered Pronunciation Feedback** – Uses advanced speech recognition to pinpoint pronunciation mistakes.
- **Personalized Learning** – Tailors lessons based on individual needs and progress.
- **Structured Curriculum** – Offers topic-based lessons, including business English and daily conversation.
- **Convenient & Flexible** – Learn at your own pace with short, interactive sessions.
- **Gamified Experience** – Engaging exercises make learning fun and motivating.

Cons of ELSA AI

- **Limited Free Access** – Most advanced features require a paid subscription.
- **Not a Full Language Course** – Focuses primarily on pronunciation rather than full grammar or vocabulary training.
- **Accent Bias** – Primarily based on American English, which may not suit all learners.
- **Occasional Misinterpretations** – AI may not always accurately assess nuanced speech patterns. To know more click [HERE](#).

MATH AI: It refers to artificial intelligence tools and applications designed to assist with mathematical problem-solving, learning, and research. These AI systems use machine learning, symbolic computation, and natural language processing to analyze and solve mathematical equations, provide step-by-step explanations, and generate solutions across various domains, from basic arithmetic to advanced calculus and algebra.

Examples of MATH AI Tools:

- [Photomath](#) – Solves handwritten and printed math problems using a smartphone camera.
- [Wolfram Alpha](#) – Computes answers to complex mathematical queries using a vast knowledge base.
- [Microsoft Math Solver](#) – Offers step-by-step explanations for algebra, calculus, and statistics.
- [Symbolab](#) – Provides detailed solutions and explanations for a wide range of math topics.

Pros of MATH AI:

- Instant and accurate problem-solving.
- Step-by-step explanations enhance learning.
- Supports multiple levels, from school to university math.
- Some tools allow handwritten input for convenience.

Cons of MATH AI:

- May encourage reliance on AI instead of problem-solving skills.
- Some features require a premium subscription.
- Struggles with highly complex or abstract mathematical concepts.

Kolkata's Literary Legacy: The 48th Book Fair

The 48th International Kolkata Book Fair opened on Tuesday, January 28, 2025, with a record 1,000 stalls, showcasing book, magazine, and cultural exhibits. This year, Germany is the theme country, with other international participants from Argentina, Spain, Peru, the United States, the United Kingdom, France, Russia, and Nepal. Tridib Chatterjee, President of the Publishers and Booksellers Guild, shared that some of the pathways within the fairgrounds are named after eminent literary figures from Germany, such as Franz Kafka, Bertolt Brecht, Rainer Marier Rilke, alongside eminent personalities and writers from our own country

The main gates of this year's book fair are Salil Chowdhury Ritwik Ghatak Gate, Goethe Gate, Max Mueller Gate, HackeschenHöfe Gate, Brandenburg Gate, Biswa Bangla Gate, and Jibananda Nazrul Gate. Abul Bashar, a distinguished writer from West Bengal, was honored with this year's 'Lifetime Achievement Samman' award, receiving a cash prize of ₹2 lakhs. For the first time, the Book Fair will feature a special Mascot, ducks named Haso and Hasi, who are all set to welcome visitors. In addition, The Publishers and Booksellers Guild has launched a book-lovers project called 'Buy Books, Win a Book Library'. Every day during the event, a lottery will be held, and 15 lucky winners will receive Book Gift Coupons worth Rs.1000/- each.

Bangladesh's absence from this year's book fair is noteworthy. According to the organisers, the Publishers and Booksellers Guild, this marks the first time Bangladesh has not participated in the International Kolkata Book Fair since 1996, except for the two years when the fair was not organized.

On the other hand, for the convenience of book lovers, the Metro Railway is running additional trains on the Green Line between Sealdah and Salt Lake Sector V from January 28 to February 9 to assist visitors traveling to and from the book expo. Metro Railway officials have announced that 122 services will operate on this route between 6:55 a.m. and 9:40 p.m., up

from the usual 106. In addition, telecom services provider Bharti Airtel has deployed five dedicated network setups at the fairgrounds to ensure visitors stay connected.
