About Universal Briefing

Universal Briefing (UB) is a voluntary, non-profit, non-governmental organization with a primary focus on advancing Library and Information Services. Its goal is to cultivate professional expertise among young professionals by providing opportunities to develop essential skills and knowledge. UB aims to create tools and methods that help accelerate the growth of future generations in the field, while also supporting research activities to disseminate new knowledge and innovative ideas. Additionally, the platform strives to enhance information-handling skills among students, empowering them to navigate and use information effectively. UB is committed to building an inclusive and collaborative environment that fosters unity, fraternity, and mutual support within society.

Editorial Desk

From Editorial Desk

We have successfully completed a fruitful one-year journey of publishing the *UB Newsletter*. This endeavour was not without its challenges; there were many ups and downs, countless brainstorming sessions, and numerous dream-weaving moments that have made this achievement possible. After publishing 12+ issues, we are now on the verge of releasing our next issue with ISSN accreditation, marking the beginning of a new era for *Universal Briefing*. Our publication has left a significant footprint in the Library and Information Science (LIS) domain, and we are proud of the impact it has made.

Reflecting on this enriching year, we are grateful for the opportunity to share knowledge, innovations, and best practices through our 17 issues, which have fostered meaningful dialogue within our community. The ISSN accreditation stands as a proud milestone in our journey, a testament to our commitment to quality and scholarly recognition. This accomplishment is a result of the collective efforts of our contributors, readers, and editorial team. We extend our heartfelt gratitude to everyone who has been part of this journey, and we look forward to continuing our mission of advancing the LIS profession through this publication. To ensure even greater enrichment in the future, we kindly request your continued support by sharing valuable data, insights, and resources that will help us grow and evolve in the coming years.

We extend our heartfelt gratitude to everyone who has been part of this journey and look forward to continuing our mission of advancing the LIS profession through this publication.

Announcement**40th Study Circle**

The 40th study circle of universal briefing took place on 29th March, 2025. The speaker for the session was Dr. Nilima Paul, Librarian, Mrinalini Datta Mahavidyapith, Birati, North 24 Parganas, West Bengal. The President of the session was Dr. Pronobi Porel, Librarian, Rabindra Mahavidyalaya, Hooghly, West Bengal. The topic of the study circle was "Impact of Open Educational Resources in Digital Learning Environment".

The speaker gave a presentation on a topic which is very relevant in today's educational landscape. She began by defining key concepts such as Open Educational Resources (OER) and digital learning, offering a clear understanding of their significance. She then discussed how OER can effectively support and enhance digital learning, highlighting its growing importance in modern education. She also explained the crucial role of LIS professionals in the dissemination of OERs, emphasizing their contribution to promoting digital learning. Dr. Paul mentioned the OER movements in India, providing a detailed overview of the national initiatives. Then she illustrated the role of future libraries and LIS professionals in promoting OER integration. In summary, the speaker's comprehensive presentation explored every key aspect of OER, providing valuable perspectives on its role in the future of education.

UB-Study Circle (Forthcoming Notification)

A book was published in February 2023 by Universal briefing with the title "Open Educational Resources: Research Perspectives", comprising selected articles from the two-day International Webinar of the same title, which was organised by Universal Briefing on 20th and 21st November, 2021 at Kolkata, India. The book contains 13 selected articles on different aspects of OER including SWOT analysis, NEP, copyright and license, sustainability of OER etc., written by LIS professionals from various fields. This conference proceedings volume is edited by Dr. Avik Roy, Librarian, Derozio Memorial College; and illustrated by Avijit Naskar.

This book celebrates the profound impact of public libraries as vibrant spaces of learning, connection, and empowerment. In an era marked by rapid technological advancements and evolving societal needs, public libraries remain steadfast in their mission to provide equitable access to information and foster inclusive communities. Each chapter of this book is meticulously crafted to explore a different facet of the library experience. From the essential role of libraries in promoting literacy and lifelong learning to their innovative approaches to technology integration and community outreach, we aim to provide a comprehensive understanding of the multifaceted nature of libraries in the 21st Century.

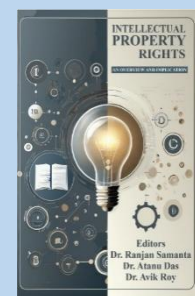

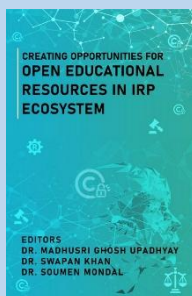

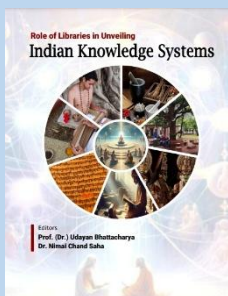

Purpose of this book titled "Redefine library in the social media age", is to visualize a dramatic transformation of concept of libraries due to rapid development of technological innovations especially in post pandemic period. The human need for information is changing day by day. They seek information from varieties of sources and formats. For this purpose, the library staff and library professionals need to adopt themselves into this dynamic environment. Social media is becoming increasingly popular among all the stakeholders of the library. There is no doubt that the present library must be defined in the context of social media to satisfy the users in this social media age.

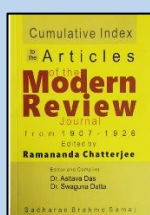

Any kind of scholarly work provides a serendipity of reading so many novel academic contents including books, book chapters, research articles, magazines, popular articles etc. Sustainability is the buzz of the day where almost every activity in the societal periphery culminates to the sustainable future. How can the library lag behind being one of the most important pillars of society? The present volume, "Sustainable Library" is an endeavour to add even an iota to the knowledge base of the global discourses on sustainable libraries. We remain grateful to Prof. Udayan Bhattacharya, Department of Library and Information Science, Jadavpur University, Kolkata to continuously inspire us to work on this compilation of the literature on sustainable

libraries and publish them in one volume.

Commercial Use of AI for book translation:

Taylor & Francis to make more translated books available more quickly using advanced AI. Following a program of rigorous testing, Taylor & Francis has announced plans to use AI translation tools to publish books that would otherwise be unavailable to English-language readers, bringing the latest knowledge to a vastly expanded readership. Until now, the time and resources required to translate books has meant that the majority remained accessible only to those who could read them in the original language. Books that were translated often only became available after a significant delay. With the development of sophisticated AI translation tools, it has become possible to make these important texts available to a broad readership at speed, without compromising on accuracy. To ensure the quality of these translations, the team at Taylor & Francis has spent a year testing different AI tools, a process which included assessment of AI outputs by expert translators and detailed comparisons of AI versions with those produced by human translators. ChatGPT's Studio Ghibli-style image generator:

Internet is flooded with memes, scenes and photographs in the Studio Ghibli-style through ChatGPT's new feature. OpenAI recently released its most advanced image generator through an update on Chat GPT-4o, which allows users to generate images in legendary Japanese filmmaker Hayao Miyazaki's hand-drawn animation style that featured in Oscar-winning films such as "Spirited Away" and "The Boy and the Heron". The feature has become so popular that the company is now limiting its wide usage. OpenAI CEO Sam Altman on Thursday announced, "our GPUs are melting". Soon after the announcement, the company paused the new image generator for free users. People, who use ChatGPT for free, will now face a daily limit on the number of images that they can generate. Altman took to X and shared the news. For more information please click [HERE](#) and [HERE](#)

Islands of Imagination: The First Andaman Book Festival

The Andaman and Nicobar Islands have experienced an unprecedented literary event with the start of the Andaman Book Festival 2025, organized by Atul Smriti Samiti, often known as the Bengali Club, and funded by Publishers & Booksellers Guild Kolkata and the Ministry of Art and Culture EZCC Kolkata. The book exhibition began on March 19 and extended until March 23.

The Atul Smriti Samiti had been attempting to host this festival since 2013, but logistical issues kept delaying it. Finally, with the help of the Kolkata Publishers & Booksellers Guild and the Eastern Zonal Cultural Association (EZCC), the Atul Smriti Samiti made it happen this year.

Thousands of books in English, Hindi, and Bengali from Kolkata's best publishers and booksellers are on exhibit, appealing to consumers with various tastes and preferences. The festival provides a unique opportunity for guests to discover a variety of genres and purchase the most recent books by their favourite writers.

According to reports, eleven renowned mainland Indian publishers participated, including Ananda Publishers, Dosh Publications, and Oxford Publishers. Furthermore, the event gave a venue for local authors to present their work, encouraging a stronger reading culture among islanders.

The festival's main goal is to reintroduce reading habits among individuals, particularly the younger generation, in an era where digital content prevails. The festival has already garnered a massive reaction, with book fans coming to the venue on the opening day. Organizers were pleasantly surprised by the volume of books sold, reaffirming their opinion that there is still a strong need for physical books.

Aside from book sales, the festival includes cultural acts, literary talks, and competitions. Schools and colleges are asked to participate in inter-school and inter-college activities such as debates, quizzes, and a drawing contest.

In addition to notable titles by well-known authors, the festival features work by local authors, allowing them a platform to demonstrate their ability. The Hindi Sahitya Kala Parishad, Andaman and Nicobar Islands, has also established a separate area exhibiting books produced by them, many of which are written by islanders and long-term residents.
