About Universal Briefing

Universal Briefing (UB) is a voluntary, non-profit, non-governmental organization with a primary focus on advancing Library and Information Services. Its goal is to cultivate professional expertise among young professionals by providing opportunities to develop essential skills and knowledge. UB aims to create tools and methods that help accelerate the growth of future generations in the field, while also supporting research activities to disseminate new knowledge and innovative ideas. Additionally, the platform strives to enhance information-handling skills among students, empowering them to navigate and use information effectively. UB is committed to building an inclusive and collaborative environment that fosters unity, fraternity, and mutual support within society.

Editorial Desk

From Editorial Desk.....

As we turn the page on another month, we take a moment to reflect on the shared purpose that brings us together—the pursuit of knowledge, the preservation of our professional values, and the celebration of community. We extend our heartfelt gratitude to all who have contributed to this journey—readers, contributors, and supporters alike. Your continued engagement strengthens our collective mission to advance the LIS profession, and we remain committed to delivering a publication that informs, connects, and uplifts the community it serves.

Beginning with this issue, we are pleased to introduce three new sections that reflect our dedication to delivering relevant, engaging, and meaningful content. **Students Corner** will focus on scholarships, fellowships, and other academic opportunities that support the young learners and next generation of professionals. **Awards & Accolades** will showcase notable achievements, and recognitions from across the field, helping us celebrate excellence and inspire others. **Library in Focus** will take you inside some of the most distinguished libraries—those with unique histories, cultural significance, or outstanding community service. These additions are part of our ongoing effort to broaden our coverage and scope, providing a platform that is both informative and reflective of the field's diversity while celebrating the people and places driving the profession forward.

Our editorial team works diligently to bring you timely updates, insightful features, and contents that matter. We hope this month's issue continues to inform, inspire, and connect. As always, we welcome your feedback, contributions, and ideas for future editions.

Study Circle Reporting.....

43rd Study Circle The 43rd study circle of Universal Briefing took place on 28th June, 2025. The speaker for the session was Dr. Shantashree Basu, Guest faculty, Department of Library & Information Science, Rabindra Bharati University. The President of the session was Dr. Ranjan Samanta, Librarian, Naba Ballygunge Mahavidyalaya, Kolkata, West Bengal. The topic of the study circle was "Interdisciplinary Subjects: Tracing Their Evolving Representation in Library Classification".

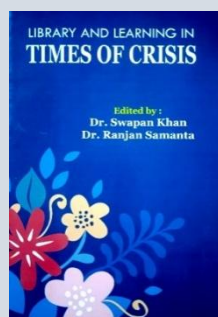

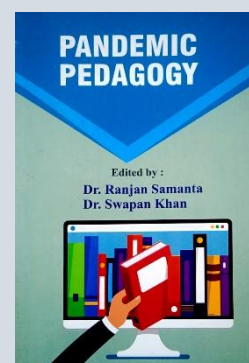

The speaker delivered an engaging presentation on a very compelling topic within the field of library and information science. She began by clearly defining the concept of interdisciplinary subjects and articulating the reasons for their emergence. This was followed by a thoughtful discussion on the importance of examining how such subjects are represented within library classification schemes. She then outlined the processes underlying the development and formation of interdisciplinary subjects, offering a detailed case study of a specific interdisciplinary domain. Tracing its historical evolution over the past 500–600 years, Dr. Basu illustrated the stages of its development, the typology of relationships involved, and the changing modes of its formation. She also highlighted how its classification within the Dewey Decimal Classification (DDC) system has shifted over time. She concluded the presentation with the insightful observation, drawn from her research, that classificatory structures indeed reflect the historical development and evolution of interdisciplinary subjects.

Announcement.....

UB-Study Circle (Forthcoming Notification) The 44th study circle of the Universal Briefing will take place on 26th July, 2025 at 7.30 pm and the speaker for the session will be Dr. Biswajit Das, Chief Librarian and Registrar, Gour Banga University, Malda, West Bengal.

Our Publication.....

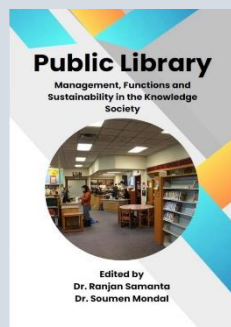

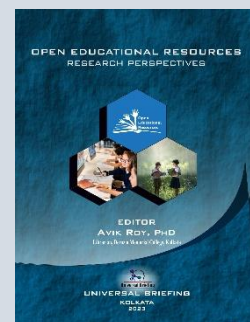

The book "Pandemic Pedagogy" was published by Prova Prakashani in collaboration with Universal Briefing in the year 2020. It was jointly edited by Dr. Ranjan Samanta and Dr. Swapan Khan. The book had informative eighteenth chapters. The outstanding contribution of authors presented an exceptional dimension on pandemic pedagogy in relation to academic library and pandemic pedagogy mainly in higher education. Thought content, practical experience and knowledge of authors would help the students, scholars, library professional and others to understand the situation of education during Pandemic and the challenge taken to overcome; teaching learning process of that situation; advancement of new technology; extension of online education and open educational resources; opportunities and threats of online education.

The book "Library and Learning in Times of Crisis" was published by Prova Prakashani in collaboration with Universal Briefing in the year 2021, edited by Dr. Ranjan Samanta and Dr. Swapan Khan. It contained seventeenth valuable research papers highlighted the role of libraries especially academic libraries and online teaching learning during the period of Global Pandemic of Covid-19. Some papers focused on Government initiatives for learners during Covid-19, effectiveness of social media for education; strength, weakness, opportunity, and threat of e-learning; importance of e-resources etc. The papers helped librarian to take various steps in every aspect of library services. Overall, all papers were very informative and insightful for learners, teachers, administrators, policy makers and government.

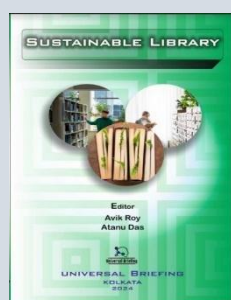

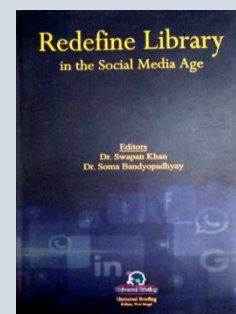

UB Endeavour

A book was published in February 2023 by Universal briefing with the title "Open Educational Resources: Research Perspectives", comprising selected articles from the two-day International Webinar of the same title, which was organised by Universal Briefing on 20th and 21st November, 2021 at Kolkata, India. The book contains 13 selected articles on different aspects of OER including SWOT analysis, NEP, copyright and license, sustainability of OER etc., written by LIS professionals from various fields. This conference proceedings volume is edited by Dr. Avik Roy, Librarian, Derozio Memorial College; and illustrated by Avijit Naskar.

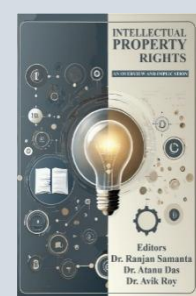

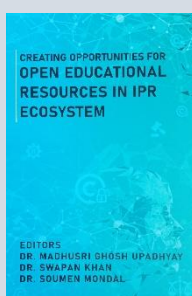

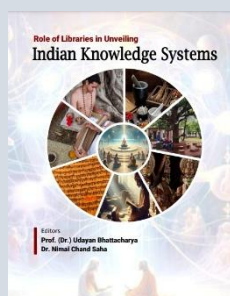

This book celebrates the profound impact of public libraries as vibrant spaces of learning, connection, and empowerment. In an era marked by rapid technological advancements and evolving societal needs, public libraries remain steadfast in their mission to provide equitable access to information and foster inclusive communities. Each chapter of this book is meticulously crafted to explore a different facet of the library experience. From the essential role of libraries in promoting literacy and lifelong learning to their innovative approaches to technology integration and community outreach, we aim to provide a comprehensive understanding of the multifaceted nature of libraries in the 21st Century.

Purpose of this book titled "Redefine library in the social media age", is to visualize a dramatic transformation of concept of libraries due to rapid development of technological innovations especially in post pandemic period. The human need for information is changing day by day. They seek information from varieties of sources and formats. For this purpose, the library staff and library professionals need to adopt themselves into this dynamic environment. Social media is becoming increasingly popular among all the stakeholders of the library. There is no doubt that the present library must be defined in the context of social media to satisfy the users in this social media age.

Any kind of scholarly work provides a serendipity of reading so many novel academic contents including books, book chapters, research articles, magazines, popular articles etc. Sustainability is the buzz of the day where almost every activity in the societal periphery culminates to the sustainable future. How can the library lag behind being one of the most important pillars of society? The present volume, "Sustainable Library" is an endeavour to add even an iota to the knowledge base of the global discourses on sustainable libraries. We remain grateful to Prof. Udayan Bhattacharya, Department of Library and Information Science, Jadavpur University, Kolkata to continuously inspire us to work on this compilation of the literature on sustainable libraries and publish them in one volume.

Obituary

Bhagawan Chandra Sarmah (1942–2025)

Veteran Librarian, Visionary Educationist, and Stalwart of Assam's Library Movement

Renowned library science expert and respected academic Bhagawan Chandra Sarmah, former Director of Library Education, Government of Assam, passed away on May 19, 2025, at a private hospital in Tezpur. He was 84. His passing has left a deep void in Assam's academic and library communities. Born in 1942 in Nalbari, Sarmah began his distinguished career as District Librarian in Silchar, where he promoted reading culture and community engagement with libraries. His commitment to expanding access to information saw him later serve in Lakhimpur and Tezpur, before rising to the post of Director of Library Education in Guwahati. He opted for voluntary retirement in 2000 but remained active in academic and social life. A long-time resident of Kundil Nagar, Tezpur, Sarmah played a key role in Assam's

Library Movement. Known for his integrity, leadership, and passion for learning, he worked tirelessly to promote equitable access to library resources. Even post-retirement, he mentored young professionals, contributed to cultural forums, and continued to advocate for the transformative power of libraries.

On May 16, Sarmah suffered a fall at home, resulting in a serious head injury. He was admitted to hospital but succumbed three days later. Despite recent health challenges, he remained intellectually engaged until the end. Sarmah's public-spirited legacy extended beyond libraries. With financial support from his younger daughter Bhaswati Sarmah (Canada-based), and with help from then District Commissioner Deba Kumar Mishra, he helped establish a 500 LPM oxygen generation plant at Tezpur Kanaklata Civil Hospital. The facility was inaugurated in his presence by Minister Chandra Mohan Patowary on August 16, 2023. He is survived by his daughters Urvashi and Bhaswati Sarmah, two sons-in-law, two granddaughters, and many admirers. His death has been widely mourned by leaders including Tezpur MLA Prithiraj Rava, former Education Minister Brindaban Goswami, and cultural bodies like Tezpur Xahitya Xabha, Baan Theatre, and the Tezpur District Library. Bhagawan Chandra Sarmah's life was a testament to service, scholarship, and social commitment. His contributions will be remembered for generations to come. May his soul rest in eternal peace.

Distinguished Insights

Kudos to you. Congratulation to all the dedicated team members for your commitment and dedication towards LIS Profession and Professionals.

Prof. Ramesha, President, IATLIS

Awards & Accolades

Prof. Dr. Subarna Kumar Das

Dr. Subarna Kumar Das, Professor, Department of Library and Information Science, Jadavpur University in Kolkata, has been awarded this year, with the **Prof. A. G. Motiwale Best LIS Teacher Award** for 2023 and 2024, by The Indian Association of Teachers of Library and Information Science (IATLIS).

This award recognizes his exceptional contributions to the field of library and information science, his strong dedication to research, and his lifelong efforts to promote academic excellence. After decades of devoted service to students and the wider LIS community, Prof. Das is well-known for his deep knowledge, professional integrity, and inspiring classroom presence. The award was presented on the 28th of March 2025 with utmost respect and gratitude.

At the Kolkata Poetry Festival 2025, organized jointly by Diamond Harbour Press Club and Kusumer Pher on 27th April 2025 at Bakkhali, Fraser Ganj, the highly regarded Sundarban Ratna Award 2025 was bestowed on Professor Subarna Das. This award was given in recognition of his priceless contributions to the rich cultural heritage of Bengal. His artistic legacy, deeply entrenched in cultural awareness, still resonates today among scholars and general readers alike. With heartfelt appreciation and admiration, his enduring influence in Art and Culture was greatly acknowledged.

Students Corner

Fulbright-Nehru Fellowships

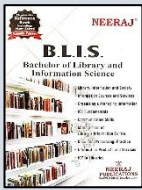

The Fulbright-Nehru Fellowship is a prestigious bilateral academic exchange program between the United States and India, jointly funded by the U.S. Department of State and the Government of India through the United States-India Educational Foundation (USIEF). It aims to strengthen ties between the United States and India and support outstanding Indian students, scholars, teachers, and professionals to study, research, teach, or pursue professional development in the U.S. Applicants selected from India will be affiliated to one U.S. host institution which can be selected by them. It covers various fields of studies in Science, Social Science, Humanities and Arts. Researchers and professionals of Library and Information Science can apply for the fellowships in any of the allied subject fields. The basic grant benefits include J-1 visa support, monthly stipend, accidents, and sickness coverage as per US government guidelines, round-trip economy class air travel, settling in allowances and other fellowship specific allowances.

Types of Fulbright-Nehru Fellowships available for Indians:

- Fulbright-Nehru Master's Fellowships
- Fulbright-Nehru Doctoral Research Fellowships
- Fulbright-Nehru Postdoctoral Research Fellowships
- Fulbright-Nehru Academic and Professional Excellence Fellowships

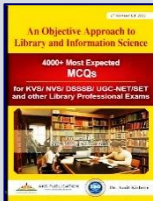

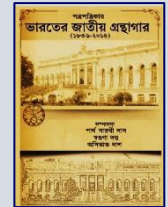

For specific eligibility criteria, field of studies, grant benefits, application and selection process please visit <https://www.usief.org.in/fulbright-fellowships/fellowships-for-indian-citizen/>

Trends on Tech

Google NotebookLM

Google NotebookLM is an AI-powered research assistant developed by Google, initially launched as "Project Tailwind." It is designed to help users synthesize information from their own documents, such as notes, PDFs, and research papers. By uploading content, users can ask questions and receive summaries, explanations, and insights directly based on the uploaded material. NotebookLM is particularly useful for students, researchers, writers, and professionals who need to organize, understand, and extract information from large amounts of text. It leverages advanced language models, including Google's Gemini, to offer contextual answers and draft content based on personalized libraries.

Key Features:

- Source Grounding:**
NotebookLM uses the documents uploaded as a foundation for its AI, making it an expert on that specific content.
- Summarization and Insight Generation:**
It can generate summaries of the sources, identify key topics, and answer questions based on the content has been provided.
- AI-Powered Research:**
NotebookLM can help to explore connections between different sources, generate different content formats (like study guides or podcasts), and even provide citations for its responses.
- Multi-Format Support:**
Various document types including Google Docs, PDFs, and website URLs can be uploaded.
- Privacy Focused:**

Trends on Tech

NotebookLM ensures that user's personal data is not used to train the model.

How it can be used:

- **Students:** Can use it to create study guides, summarize lecture notes, and explore research papers.
- **Researchers:** Can leverage it for in-depth analysis of complex documents, identify key findings, and synthesize information from various sources.
- **Writers:** Can use it to generate different content formats, explore ideas, and conduct research efficiently.
- **Professionals:** Can use it to create training materials, organize information, and improve customer support.

Significance: NotebookLM represents a step towards personalized AI assistants that can understand and work with user-specific content securely and efficiently, bridging the gap between traditional search engines and customized digital research tools.

Napkin AI

Napkin AI is a web-based visual storytelling tool that automatically transforms user's text—like outlines, blog drafts, or PowerPoint scripts—into polished visuals such as flowcharts, info-graphics, mind maps, and data charts. It works by analyzing user's text, then uses AI-powered “sub-agents” to choose layouts, select icons, and then apply styles.

Why it's notable:

- **Fast & intuitive:** Just paste your text, click the spark icon, and instantly get editable visuals.
- **Built-in editing:** After generation, user can fine-tune fonts, colors, icons, connectors, and decorators.
- **Export-ready assets:** Export visuals in formats like PPT, PNG, SVG, PDF—or share them directly via URL.
- **Design-agency in a click:** Instead of traditional templates or diffusion models, Napkin layers multiple AI “agents” (text, layout, icon, and styling) to emulate a mini design team.

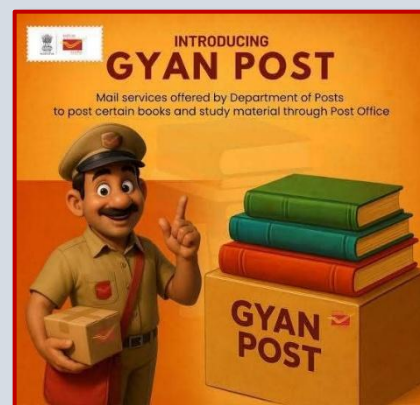

Ideal for:

- Professionals & educators who want to convert plain text into engaging, shareable visuals.
- Teams looking for quick diagram/PPT generation with easy customization.
- Anyone aiming to improve clarity and impact in communication without needing graphic-design skills.

In short, Napkin AI empowers anyone to become an effective visual communicator—unleashing ready-to-use graphics from simple text in seconds. For more information click [HERE](#).

Social Media News

"Gyan Post" a new Postal Service for affordable Delivery of Books was launched by the Department of Posts under the Ministry of Communications on 01 May 2025. The new postal service aimed at making the delivery of educational, cultural, social, and religious books more affordable and accessible. Under Gyan Post, printed materials that are "prescribed in the syllabus for correspondence and regular courses for students" by State and Union government education boards or universities will be permitted to be carried through Gyan Post; periodicals like magazines will not be covered under the scheme. For more details [click here](#)

Anna AI Club Launched at Anna Centenary Library. The Anna Centenary Library in Chennai has launched the Anna AI Club to promote AI awareness and creativity. The club will host discussions with experts and enthusiasts. It aims to influence policy and bridge AI with education, heritage, and technology. The meeting will be held on the first and third Sunday of every month at 10.30 AM. [Click here](#) for ANNA AI CLUB Membership Form.

Bhubaneswar Airport (Biju Patnaik International Airport) has a Flybrary—India's first "Take-a-Book" airport library—run by the Bakul Foundation in partnership with AAI. There are two unmanned book shelves, one each at the Departures and Arrivals areas. You can browse and pick any book (fiction, self-help, magazines, children's titles) in English, Hindi, or Odia from a collection of about 600 books. Take it home if you like, read at your leisure, and later return it at any Flybrary rack when you travel next—or mail it back to the Bakul Foundation. A volunteer restocks and organizes the shelves daily, though restocking remains a challenge due to high demand.

The state School Education department has sanctioned Rs 20.26 crore for the procurement of library books in 2,026 government-aided and sponsored schools across West Bengal. According to an official notification issued by the Commissioner of School Education, each school has received a grant of Rs 1 lakh for the 2024-25 financial year. The funds will be used to purchase curated sets of books, tailored to the specific requirements of each district. As per the directive, the department has divided the state's 25 education districts into five groups, with each group assigned a distinct set of books (each set contains around 500 to 600 titles) valued at approximately Rs 1 lakh.

Union Home Minister Amit Shah visited the INFLIBNET Centre which is an autonomous UGC body and called for expanding its digital services to benefit more students and academic libraries nationwide. He **launched the "Sastu Sahitya Vardhak Karyalay" mobile app** and emphasized that "every book finds a reader, and every reader finds a book". He also endorsed a **model e-public library** project, reinforcing the government's push towards digitization.

Jai Prakash Narayan (JPN) Library, New Delhi has been scheduled to open by **September 2025**, with current work on IT infrastructure, digital access, and disability-friendly facilities in advanced stages. The expansion brings NDMC's public library network total to nine, with a state-of-the-art digital library component planned. For more details [click here](#)

GLAM Special Report

The Deep End of Climate Crisis: A Cultural Heritage Perspective

On June 19, 2025, UNESCO Headquarters in Paris hosted an international scientific meeting titled "Underwater cultural heritage and the challenges of climate change." In collaboration with Drassm (French Ministry of Culture), a Scientific Conference was held on June 19, 2025, to commemorate the 10th session of the Meeting of the States Parties and the 16th Meeting of the Scientific and Technical Advisory Body of the 2001 Convention on the Protection of the Underwater Cultural Heritage.

The goal of the conference was to provide a vibrant forum where attendees could actively discuss issues, exchange

best practices, and explore cutting-edge approaches to safeguarding undersea cultural treasures. This year's talks addressed "Underwater cultural heritage and the challenges of climate change." The public, media, accredited NGOs, university partner networks, specialists, representatives of States Parties to the Convention, and Observers Member States were all welcome to attend the scientific meeting.

The conference was a key part of a worldwide effort to connect climate issues to culture. This effort included events like the "UNESCO Reflection Meeting on Culture and Climate Action: Towards MONDIACULT 2025 and COP30" (March 2025), the United Nations Ocean Conference (UNOC3, June 2025), and planned projects like the "International Conference on Climate Action at the Intersection of Water, Culture, and Heritage in the Indian Ocean and Red Sea Region" that UNESCO will soon host.

Climate change and anthropogenic activities are putting substantial strain on the undersea cultural heritage. However, there is currently a lack of preparedness for managing these stresses. This scientific conference aimed to increase awareness of the effects of climate change on coastal and underwater cultural heritage, foster dialogue among experts, decision-makers, heritage professionals, archaeologists, and the general public, and promote interdisciplinary collaboration and international cooperation. On this occasion, over twenty specialists from around the world were invited to talk in four sessions on understanding risks, inventory and documentation, safeguarding and adaption challenges, and synergies and multidisciplinary approaches to emergency response. It was organized into four thematic sessions:

- Understanding the Threats: Examining the impact of increasing sea levels, extreme weather events, and environmental change on coastal and undersea cultural assets.
- Inventory and documentation: Introducing methods for inventorying, documenting, and mapping heritage assets vulnerable by climate change.
- Loss or preservation through adaptation? Developing adaptable solutions and resilience-building efforts for heritage preservation.
- Synergies and interdisciplinary: Demonstrating how cross-sector collaboration can improve heritage protection.

Library in Focus

Beginning with this issue, we are pleased to introduce a new section highlighting distinguished libraries with historical and cultural significance. Each month, we will feature a notable public library, a century-old library, or one with a remarkable legacy. We begin with the esteemed Bandhab Library, a long-standing center of learning and community heritage.

BANDHAB LIBRARY

A 150 – Year – Old Library Stands still at southern Part of South 24 Parganas

Several libraries in West Bengal played a significant role in the Indian freedom movement by fostering nationalist sentiment and providing spaces for discussion and debate. The Bandhab Library, Joynagar, established in 1869, was a key center for intellectual and political discourse during that period. It was established by Shri Golokenath Mukhopadhyaya at Joynagar Majilpur, South 24 Parganas, W.B. It was formerly known as the Joynagar Free Reading Club and was renamed the Bandhab Library in 1942.

For more than 157 years, this library has been serving the people of Joynagar Majilpur and surrounding areas of South 24 Parganas through its historical collections. According to librarian Smt. Madhumita Bandopadhyaya, this library is mine of information on regional history. It has various books and published documents on the Sundarbans. She also said that it is true that there is some disruption in services due to lack of Govt. funds. Former library-in-charge Mr. Bijan Ghosh said, "This library has a lot of information related to the folk culture of the Sundarbans. This library is also a repository of information related to folk music."
